The Apollo 13 malfunction - Images and information on the accident The Apollo 14 Moon Trees - Trees grown from seeds brought to the Moon by Apollo 14 The Apollo 15 Hammer/Feather Drop The Apollo 17 LM liftoff from the Moon (80 K Quicktime movie) and a 1 Mbyte version Apollos 18, 19, and 20 - The cancelled missions

### The Apollo Program (1963 - 1972)

Apollo 13 was the seventh crewed mission in the Apollo space program and the third meant to land on the Moon.The craft was launched from Kennedy Space Center on April 11, 1970, but the lunar landing was aborted after an oxygen tank in the service module (SM) failed two days into the mission. The crew instead looped around the Moon, and returned safely to Earth on April 17.

### Apollo 13 - Wikipedia

Apollo 8 was the second crewed mission of the Apollo program and the first mission to bring humans to the moon. The six-day mission lifted off on Dec. 21, 1968, with its crew of Frank Borman, Jim ...

### Apollo 8: First Around the Moon | Space

At the end of the last Apollo 15 moon walk, Commander David Scott (pictured above) performed a live demonstration for the television cameras. He held out a geologic hammer and a feather and dropped them at the same time. Because they were essentially in a vacuum, there was no air resistance and the feather fell at the same rate as the hammer ...

### The Apollo 15 Hammer-Feather Drop - Moon: NASA Science

The next test of the lunar module was conducted above the Moon. Apollo 10 was a full dress rehearsal for the first lunar landing. The crew tested all aspects of the mission, even showing the initial docking with the lunar module on the first color television transmission from space.

### NASA: Apollo Missions
