Medical definition of arthrology: a science concerned with the study of joints.

Arthrology Medical Definition | Merriam-Webster Medical ...

Arthrology is the science concerned with the study of anatomy, function, dysfunction and treatment of joints and articulations. The prefix "arthro-" refers to joints, as in arthrogram, arthroscopy, or arthritis, from the Greek ἄρθρον arthron. Arthrology is also called as arthrologia, syndesmologia, syndesmology, and synosteology.
