How Businesses Affect the Environment The place you work can affect the environment either positively or negatively to a very large degree. How eco-friendly your employer is when it comes to using energy to heat and cool the building, to bring products into it, and to remove waste from it has a major impact on your community and the planet.

How Businesses Affect the Environment - dummies

The business firm consists of a set of internal factors and is confronted with a set of external factors (i.e., environment). This is the relation between a firm and its environment. The internal factors are regarded as controllable factors, as the firm has got control over these factors. The firm can alter or modify internal factors to its advantage.

Business Firm and Its Environment

The literal definition of an organization's business environment includes a superset of both internal and external factors that influence the operations of a company on the ground in all the facilities it operates. Business environment is a very wide term including suppliers, wholesalers, retailers, vendors, employees, consultants, directors.

What is Business Environment? Internal & External Business ...

There is a constant 'give and take' relationship between environment and business. The business receives inputs, information and technology from the environment and gives it back in the form of outputs (goods and services). If these outputs are accepted by the environment, the environment-business interaction continues but if they are unacceptable to the environment, firms adapt to the environmental requirements and change their operations.

Relationship between Environment and Business

Business is affected by different factors which collectively form the business environment. These include economic, social, legal, technological and political factors. Business environment is therefore, the total of all external forces, which affect the organization and the business operations (Kotler &Armstrong 2004).
