have been playing a growing role in environmental policies of OECD countries. In this context, a distinctive feature is the increasing role of environmentally related taxes. All countries have introduced environmental taxes to a varying extent, and an increasing number of countries are implementing comprehensive green-tax reforms, while others

### **ISSUES AND STRATEGIES - CBD**

environmental tax is a narrower tax than an income tax (because the income tax covers all production, whereas the environmental tax covers only polluting production). More recent work has pushed back to some extent against that conclusion. To pick just one example, Parry and Bento (2000) suggest that inefficient tax preferences
