### Faa Multi Engine Rating

There is no FAA written exam for a multi-engine add-on rating; you'll need to have acquired multi-engine knowledge (performance, aerodynamics, single-engine performance, emergency operations, etc.) only for your practical test, or checkride. If you're a private pilot applicant in a multi-engine aircraft, you'll have to pass the private pilot FAA knowledge exam.

### How to Earn a Multi-Engine Rating as a Pilot

What is a Multi Engine Rating? A multi engine rating is just that: a certificate that allows pilots to operate an aircraft with more than one engine. It is an add-on to an already existing commercial, private, or ATP (Airline Transport Pilot) license or certificate. Multi engine ratings are exciting because they allow pilots to have a different experience in the air: aircraft performance is highly improved, as well as an increase in speed, power, and climbing rate.

### Multi Engine Rating Requirements | J.A.Air

Basically, you have to do training in the areas of operation found in FAR 61.107(b)(2) that cover the multiengine rating at the private level. FAR 61.63(c) Additional class rating. Any person who applies for an additional class rating to be added on a pilot certificate:

### REQUIREMENTS FOR THE MULTI-ENGINE RATING - Flight School

The multi-engine land rating is an "add-on" to an existing single-engine land private, commercial, or ATP certificate. For this rating, both VFR and IFR operations will be emphasized. There are no minimum time requirements for the multi-engine land rating; however you will need an instructor endorsement for flight and ground training prior to taking the checkride.
