Spiral Pipe Gauge We manufacture spiral pipe in 18, 20, 22, & 24 gauge galvanized metal. Stronger than other pipe - Our pipe is up to 20% stronger than smooth pipe systems of the same gauge, due to the added spiral reinforcement. No painting required, will last years outdoors. Spiral Pipe Diameter Available in 3-inch to 36-inch diameter

Spiral Pipe (6"-24") - Air Handling Systems

The spiral model (software development) is a generic process model. The four phases only set out the basic objectives of a cycle, but do not have to be reflected in each rotation. Their order is also not strictly determined by the spiral model. For this reason, the model can be combined with other process models at any time.

Spiral model: the risk-minimizing model for software ...

The Spiral Model Approach It seems that "spiral development" means different things to different people. The concept was first described by Barry Boehm [10] as an iterative waterfall in which each iteration provides increasing software capability.
