Turn a Raspberry Pi 3 into a TOR network router. Know How uses a Raspberry Pi 3 to set up a TOR network router. They choose a Raspberry Pi 3 specifically because it has built-in wireless networking (the Pi Zero W would work well in this regard too). The Raspberry Pi connects to the TOR network.

TOR: Turn a Raspberry Pi into The Onion Router. Keep your ...

If you are uncomfortable allowing people to exit from your relay, you can set it up to only allow connections to other Tor relays. Your relay will passively estimate and advertise its recent bandwidth capacity, so high-bandwidth relays will attract more users than low-bandwidth ones. Therefore, having low-bandwidth relays is useful too.
