Uncovering The Past A History

In Uncovering the Past, William H. Stiebing, Jr. offers an absorbing nontechnical history of archaeology, tracing the study of ancient material culture from its beginnings in the Renaissance through its development into the sophisticated modern discipline we know today. The first study to focus on archaeology as a discipline, Stiebing has organized this concise history into the four stages of archaeological development.

Uncovering the Past Uncovering the Past Students are introduced to Cudjo Lewis, one of the last survivors of the illegal slave ship, the Clotilda, and consider why his story is important to his descendants and others. Then, students investigate details about the Clotilda that led archaeologists to a positive identification. Finally, students participate in a Socratic seminar to synthesize their learning and connect it to their lives.
