Why Am I Still Depressed? Recognizing and Managing the Ups

...

Sometimes, feelings of depression can seem a complete mystery. Everything in life seems to be 'in place.'. A person might have supportive friends, a good job, financial security and a loving family yet still feels unhappy or as if life is not worth living. Regardless of a person's external circumstances, it's their internal ones that are important when it comes to depression.

Why am I depressed if my life is fine?

If your depression keeps coming back or is even getting worse, then you may be suffering from bipolar II or 'soft' bipolar disorder. This text shows you how to identify if you have a nonmanic form of bipolar disorder and how to work with your doctor to safely and effectively treat it.
