Common Sense Atheism **Regulated Learner**

Self-regulated learning is an overarching term that addresses how students approach their learning, work toward goals, and evaluate their performance. The topic of self-regulated learning intertwines cognitive strategies, metacognitive strategies, and motivational beliefs (VanderStoep et al., 1996).

Develop Self-Regulated Learners

Self-regulation researchers have sought to understand students like Tracy and to provide help in developing key processes that she lacks, such as goal setting, time management, learning strategies, self-evaluation, self-attributions, seeking - help or information, and important self-motivational beliefs,

Taylor Francis

Self-regulated learning (SRL) is one of the domains of self-regulation, and is aligned most closely with educational
