3 Leipzig Spring School 2008: Historical Chadic Phonology (E. Wolff) Part 1: Introduction Chadic within Afroasiatic Typology: Root and pattern (functions of vowels in grammar) - verbal morphology: pluractional verb stems - nominal morphology: internal noun plurals Historical grammar: "frozen" determiners (& their effect on vowel qualities within the phonological word)

Issues in the Historical Phonology of Chadic Languages

Hausa, a West Chadic language, is one of the major lingua francas of Africa on the national and international level; approximately 40-50 million people speak it as either a first or a second language. Some other Chadic languages, including some that had fairly large numbers of speakers at the turn of the 21st century, are threatened by extinction in part because of the rapid expansion of Hausa.

Chadic languages - Wikimili, The Free Encyclopedia

Mubi-Torani is a group of languages in the Republic of Chad (some of them close to the border with Sudan). This group belongs to the eastern subbranch of Chadic and thus represents the member of the immense Afro-Asiatic (Semito-Hamitic) macrofamily comprising six equipotential branches: Semitic, Egyptian, Berber, Cushitic, Omotic, and Chadic.
