Since the solution to 78E from 24 chapter was answered, more than 285 students have viewed the full step-by-step answer. This full solution covers the following key subjects: metal, complexes, ion, ligand, solution.

### Two ligands, A and B, both form complexes with a | StudySoup

Chemistry, like all sciences, is quantitative. It deals with quantities, things that have amounts and units. Dealing with quantities is very important in chemistry, as is relating quantities to each other. In this chapter, we will discuss how we deal with numbers and units, including how they are combined and manipulated.
