Lab: The Metric System
and Measurement

Objectives: At the end
of this lab, you should
be able to: 1. Identify
the standard units of
the metric system and
make conversions
among units. 2.

Measure using metric
system units.

Introduction: The
purpose of this
exercise is to practice
using the metric
system. To conduct a

THE METRIC SYSTEM

...

The International System of Units (French: *Système International d'Unités*, SI) is the modern form of the metric system and is the world's most widely used system of measurement, used in both commerce and science. It comprises a coherent system of units of measurement built on seven base (fundamental) units.
