LECTURE NOTES Obstetrics and Gynaecology

Though Kovacs' Notes are probably the best set of exam notes written in ANY subject here at this medical school, they lack clear cut descriptions of the regions including their borders, skin innervation and muscles. The regional anatomy exam notes are simply an appendix to Kovacs' Notes supplementing the missing bits and pieces.

FREE Anatomy, Histology and Embryology Lecture Notes ...

Anatomy has always been a difficult subject to learn and teach. EasyAnatomy provides a novel tool which will allow students to explore and understand anatomy in a three-dimensional manner which has not been possible until now. Dr. Chris Clark Associate Dean, Academic (Acting), Western College of Veterinary Medicine “

Foliate papillae, covered with non-keratinized stratified squamous epithelium, are leaf- shaped structures defined by an invagination of the mucous membrane on their sides. Many taste buds on their lateral surfaces indicate their role in gustation. They are absent in ruminants but well developed in the horse and dog.
