Globally, the burden of neurological disorders, as measured by the absolute number of DALYs, continues to increase. As populations are growing and ageing, and the prevalence of major disabling neurological disorders steeply increases with age, governments will face increasing demand for treatment, rehabilitation, and support services for neurological disorders.

Global, regional, and national burden of neurological ...

Computers and electronics play an enormous role in today's society, impacting everything from communication and medicine to science. Although computers are typically viewed as a modern

invention involving electronics, computing predates the use of electrical devices.
