Turnigy 9X 2.4GHz radio control system Version 2 review ...

The Tunigy 9X I have is a version 2, there is now an in-built 2.4GHz antenna and the new system looks little different to the older version. The 2.4GHz side of things is vastly improved over the original system (pending flight tests to confirm that). It's now a frequency hopper at an incredibly low price.

RE: Turnigy 9X 2.4Ghz 9 Channel Radio I think what skypupmut is getting at is there are so many satisfied HK customers, myself included, but a relative few disgruntled (for whatever reason) customers seem bent on preventing others from enjoying an excellent wallet-friendly resource in the face of countless success stories.

RCU Forums - Turnigy 9X 2.4Ghz 9 Channel Radio

HK is also going to offer the Turnigy 6 ch 2.4 GHz radio, with drivers for Windows Vista, at around the same time. The nice thing is that the 4 ch, 6 ch, and the 9x (8 ch with 2.4 GHz module) all can use the same 6 channel \$15 receivers.
